

# Manufacturer's Capability

## Certificate (MCC)

Certificate No. 12460 SYD

It is hereby confirmed that

### **BRITTON MARINE (AUSTRALIA) PTY LTD**

Through a qualification audit on 29 May & 4<sup>th</sup> July 2008 have been found to be capable of

- **Manufacturing, maintenance and conceptional integration of military / law enforcement and commercial crafts.**

The quality management system has been found to be functional and well implemented. It has been demonstrated that sufficient human and hardware resources are available to perform such jobs, and that relevant project references exist. Company demonstrates ability and capability to manufacture the above mentioned special purpose boats according to local and international standards.

The qualification audit was carried out at the customer's facilities at Taren Point, Australia and has covered aspects like processing of enquiry, procurement practices, production methods, reaction to additional customer requirements, design capability, machining and storage practices. Previous good experience of Germanischer Lloyd in relation to certification and sea trials of rescue boats for military purposes and authorisation provided by GEMINI MARINE CC from South Africa for installation, fitment of sea trials for all GEMINI boats, have been taken in account.

Expiry date: 3rd July 2011\*

**Germanischer Lloyd**

A handwritten signature in blue ink, appearing to read 'Dejan Petrovic'.
